Facilitation of learning	4.76
Availability to assist students in or out of class	4.79
Respect and concern for students	4.72

Excerpts from student comment form for Global Environment and Society:

- “One of the most helpful professors that I’ve had here at my time at FIU. Very professional in every aspect and extremely attentive to her students. Unlike many professors, I actually enjoyed speaking to her and made me get interested in the topics in class.”
- “She is a very good professor and I learned a lot and she inspired me to be a better person. Sometimes I even thought of changing my major because of her classes. I really enjoy her classes and she helped me a lot and she did understand when I had difficulties, like when I didn’t understand something because English is not my mother language.”
- “Excellent professor. She is enthusiastic and knowledgeable about the environment. Clear and organized expectations for the course.”
- “Excellent professor. Knows the topic very well. Fair grader, responsive and reliable. Respectful for student’s opinions. Passionate about what she teaches.”

Student feedback collected and digitized by Earth and Environment department staff at Florida International University.
